

# Biodegradable Cremation Urns

January 2008

The Journey/Shell Earthurns are perfect for Ocean or Deep Water Burial. Fabricated by hand from recycled and earth-friendly materials. These urns will float momentarily and then sink gracefully. Once on the ocean floor, the urn will dissolve naturally over time. Includes a water-soluble plastic bag which dissolves on contact with water, allowing the cremated remains to be dispersed within minutes. The time each Earthurn takes to break down will vary depending on climatic conditions.
